| warn | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| error | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |
| critical | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |
| down | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |

- Archived Travel and Alert Histories

The SentryGPSid™ is a small, powerful, lightweight and effective Assisted GPS personal location device which has superior sensitivity and fast time to first fix (TTFF). The SentryGPSid™ is small & light enough to fit in most pockets, or most anywhere you can fit a

standard 9-volt battery. The SentryGPSid™ can also be easily affixed to a belt using the included carrying pouch.

At just \$185 for the device and \$19/month for the service, we made the SentryGPSid™ the most affordable GPS location device - and we did not sacrifice any features to do it!

Locate, Track, Monitor

The smallest, most affordable and most intelligent GPS personal location device available today.

Know Before Your Loved One Wanders

The Smallest & Most Affordable GPS Personal Locator Available Today!

Being Able To Quickly Locate Your Loved Ones Has Never Been Easier!

The sentryGPSid™ personal location device provides an easy way to locate your loved ones at any time of day or night, from any internet connected computer or cell phone. At a glance, you can easily see the current location of your loved one's GPS device - including street address, latitude and longitude - as well as up to the last 50 location data points collected.

No Geographic Boundaries

A-GPS technology allows the sentryGPSid™ to be tracked through the worldwide GPRS/GSM cellular network. This means that no matter where your loved one may wander with their sentryGPSid™ you will be able to track them in real time*.

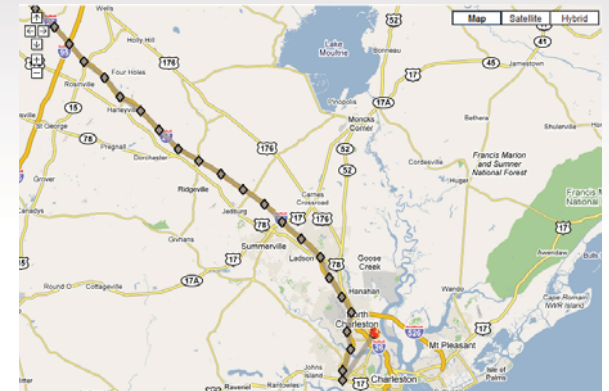

*Tracking is dependant upon the sentryGPSid being able to receive a cellular signal and can be effected by environmental factors.

The sentryGPSid™ online protection portal allows you to locate, track and monitor your sentryGPSid™ from any internet-connected computer, anywhere in the world, any time of day or night!

The sentryGPSid™ online portal is designed to not only safely return your loved ones, but to also help *prevent* them from being lost by sending custom alerts *before* they wander too far.

The SentryGPS web portal can display up to the last 50 points of data provided by the sentryGPSid™. So even if the exact location can not be pinpointed a travel history can be determined.

How To Order

You can order your sentryGPSid™ through our secure webportal:
